1. Install Klaviyo Beta	2
2. Authorize the Integration (Login)	5
3. De-authorize the integration (Logout)	12
4. Uninstall Klaviyo Beta	14
5. Support	17

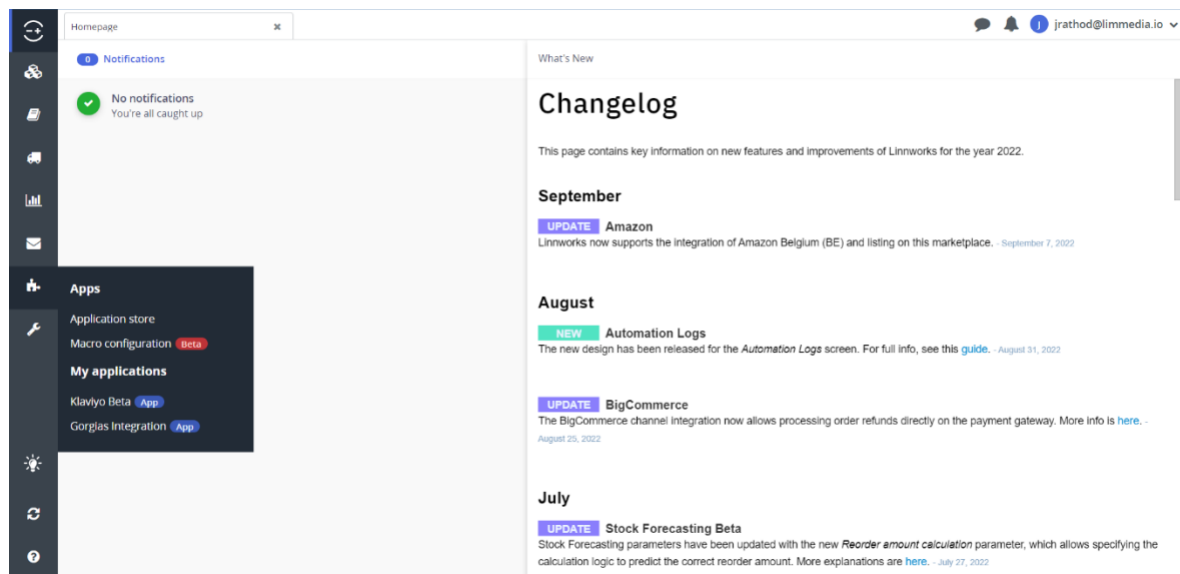

1. Install Klaviyo Beta

To get started, you need to download the app by following these steps:

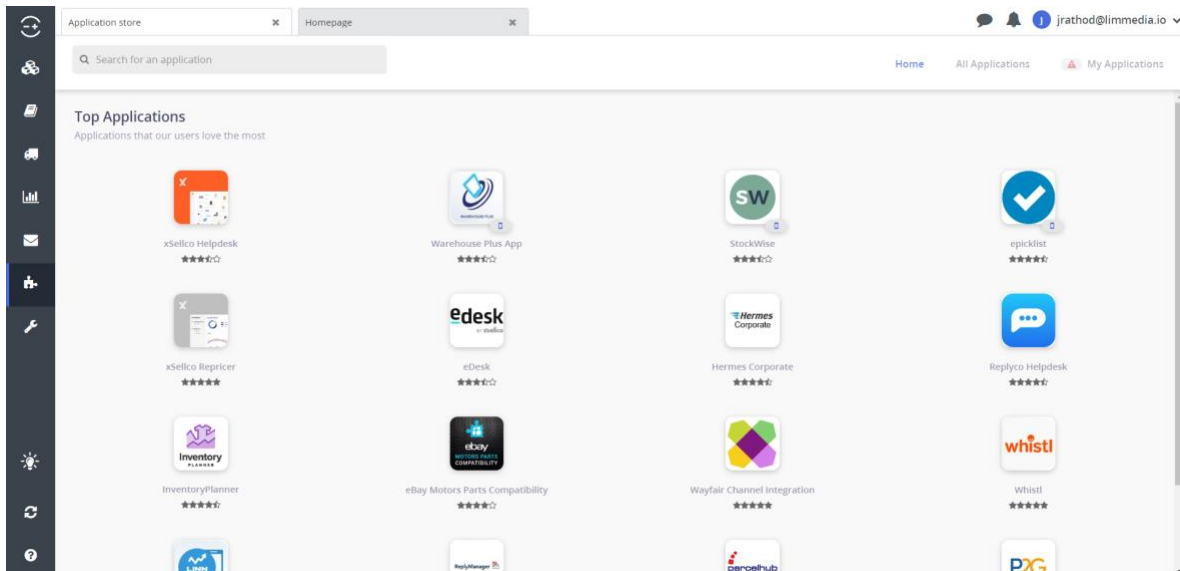

- 1.1. Login to the **Linnworks** app with your credentials (review the first steps at the start of this document).
- 1.2. On the left sidebar menu, you can find the **Apps** icon as shown below. Click on it to open the **Apps menu**.

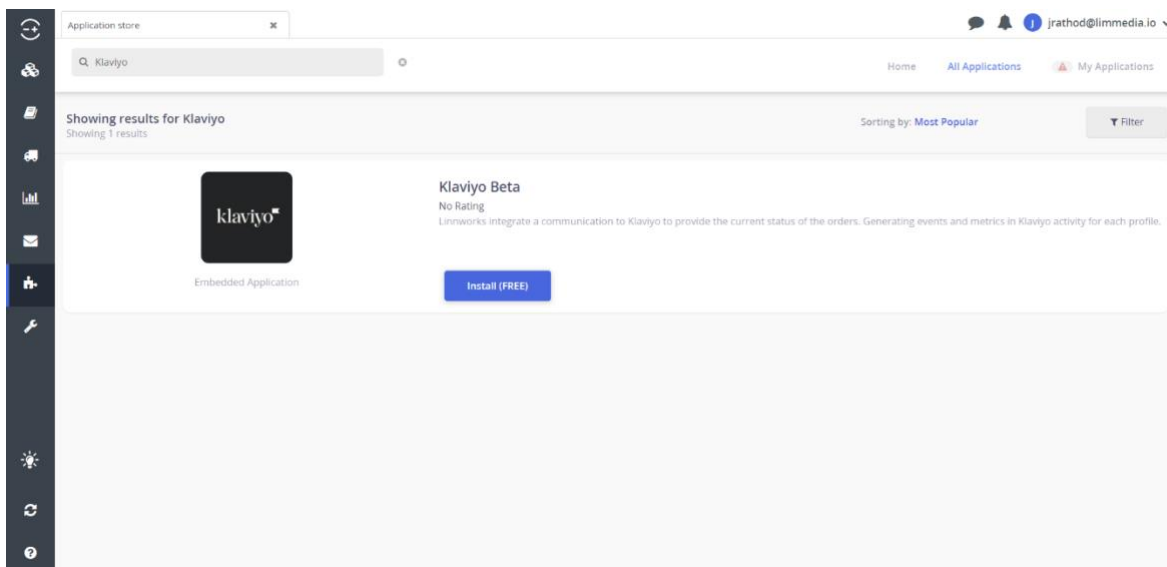

- 1.3. Here you can find all the apps that you have installed in your Linnworks account and a link for the Linnwork's App store, click on **Application store**.

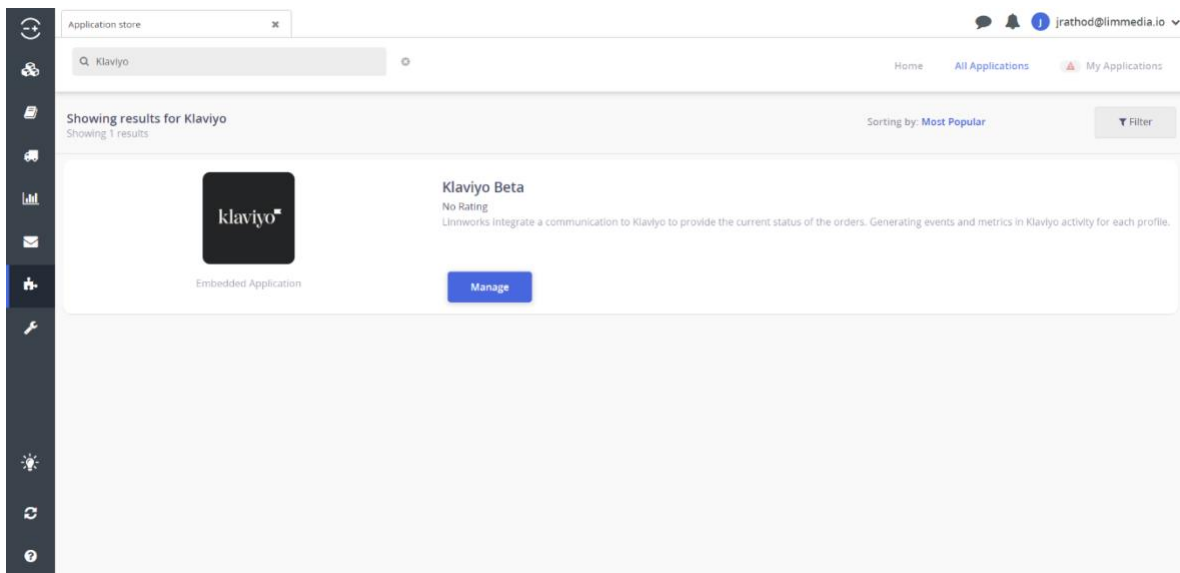

1.4. You'll be redirected to the home page of the App store, with some apps that you can add to your account, but you need to find the **Linnworks – Klaviyo Integration**.

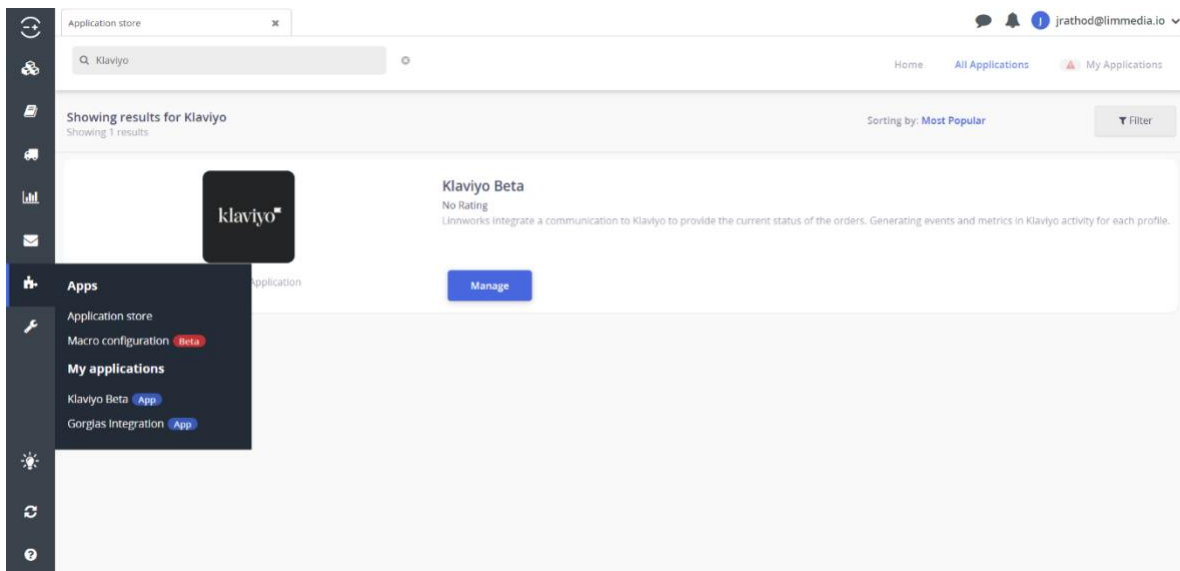

1.5. Type on the search bar **Klaviyo Beta** to find the application as shown below.

1.6. Click on the **Install (FREE)** button to add this app to your list of applications.

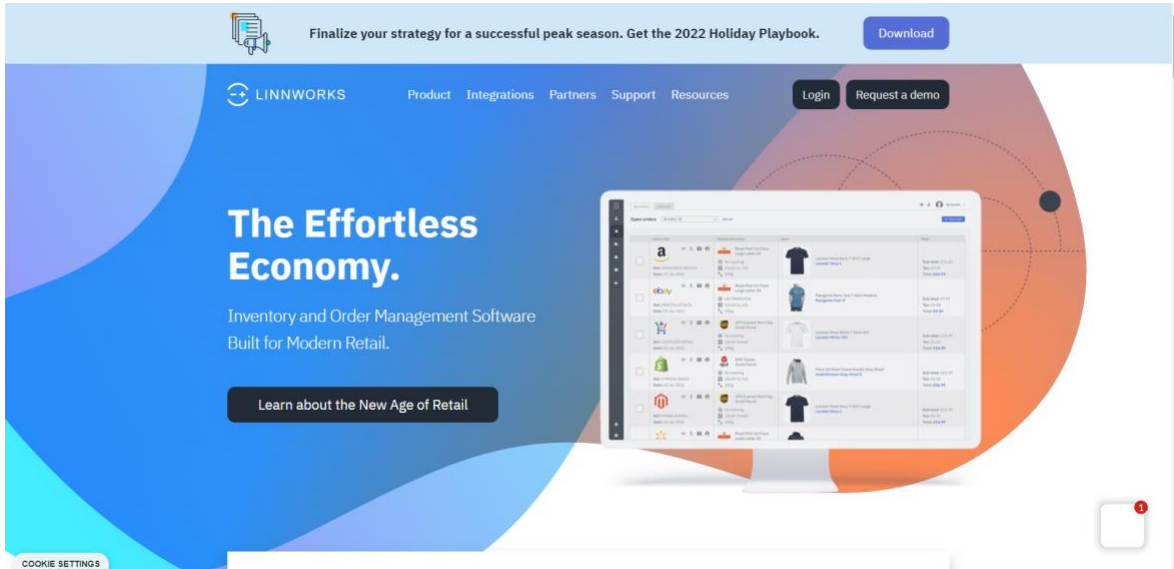

1.7. After a few seconds, you will then see the **Manage** button. That means the application is successfully installed.

1.8. You can find the app on the Apps menu option in the left sidebar as **Klaviyo Beta**.

2. Authorize the Integration (Login)

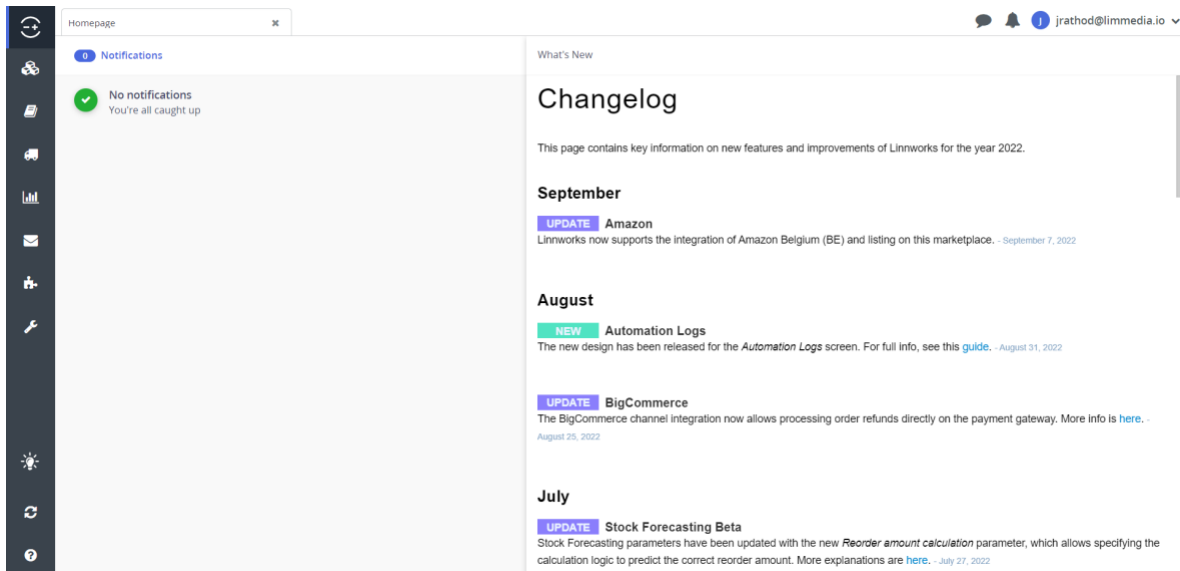

2.1. First you need to visit the website: <https://www.linnworks.net/> and click on the Login button to be redirected to the login form.

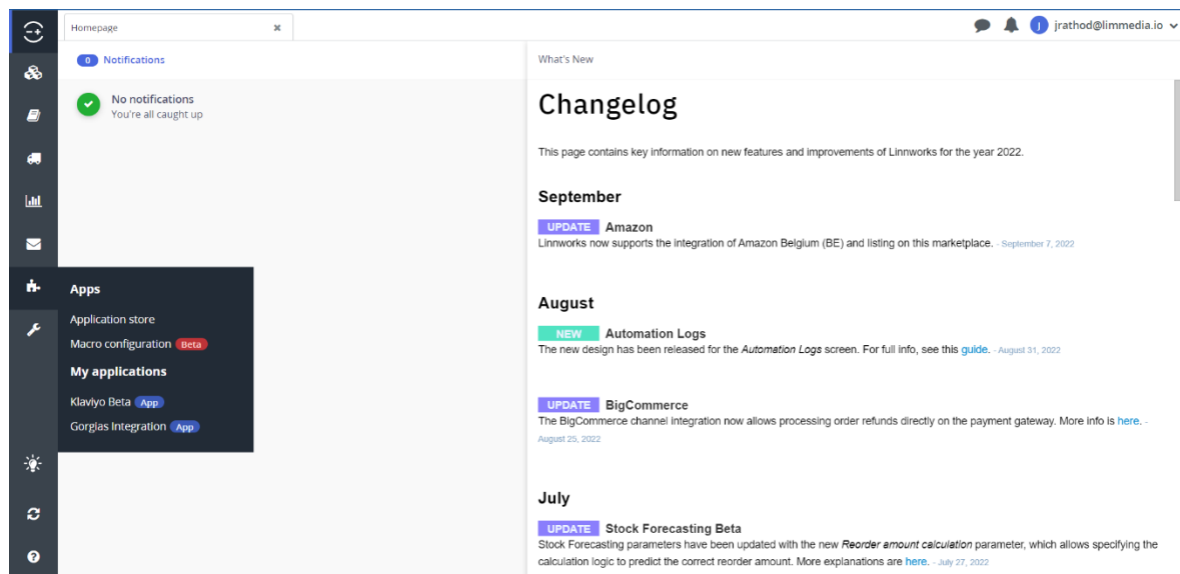

2.2. Please fill out the login form with your email and password as below.

The image shows the Linnworks login form. At the top, the Linnworks logo is displayed. Below it, the text 'Login to Linnworks' is shown. The form has two main input fields: 'Email *' and 'Password *'. The email field contains the text 'jrathod@limmedia.io'. The password field is masked with dots. Below the password field is a link that says 'Forgot your password?'. There is a blue 'Login' button. Below the button is the text 'OR'. Underneath 'OR' are three buttons for social login: 'Login with Google', 'Login with Microsoft', and 'Login with SSO'. At the bottom of the form, there is a link that says 'Don't have an account? Book a demo'.

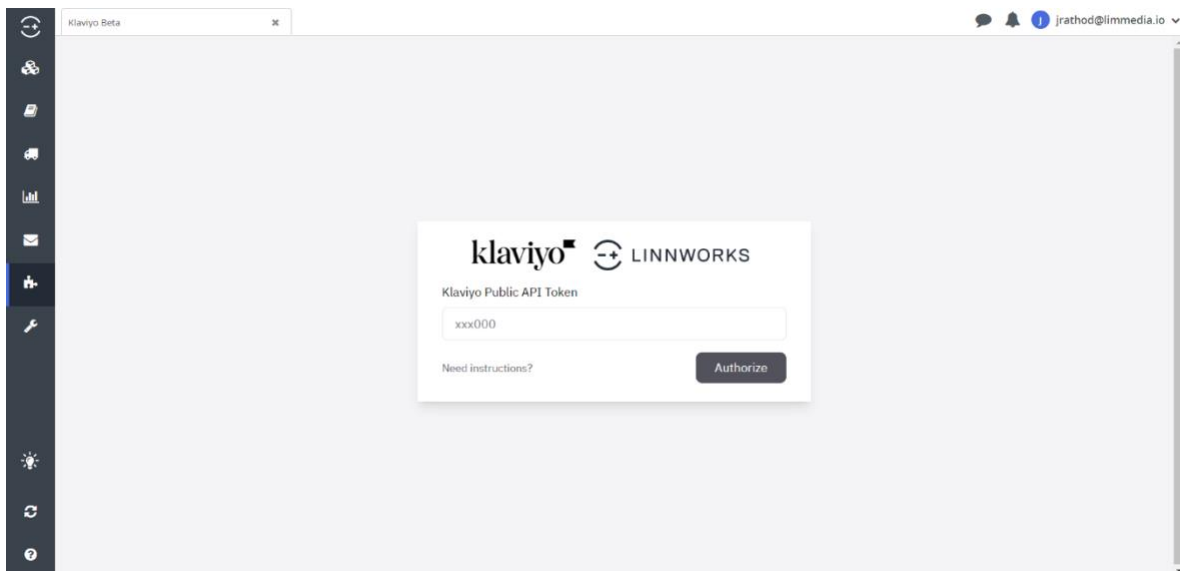

2.3. Once you click on the login button if the credentials were correct, you'll see this homepage.

2.4. Click on the **Apps** icon from the left menu options and click on the **Klaviyo Beta** link.

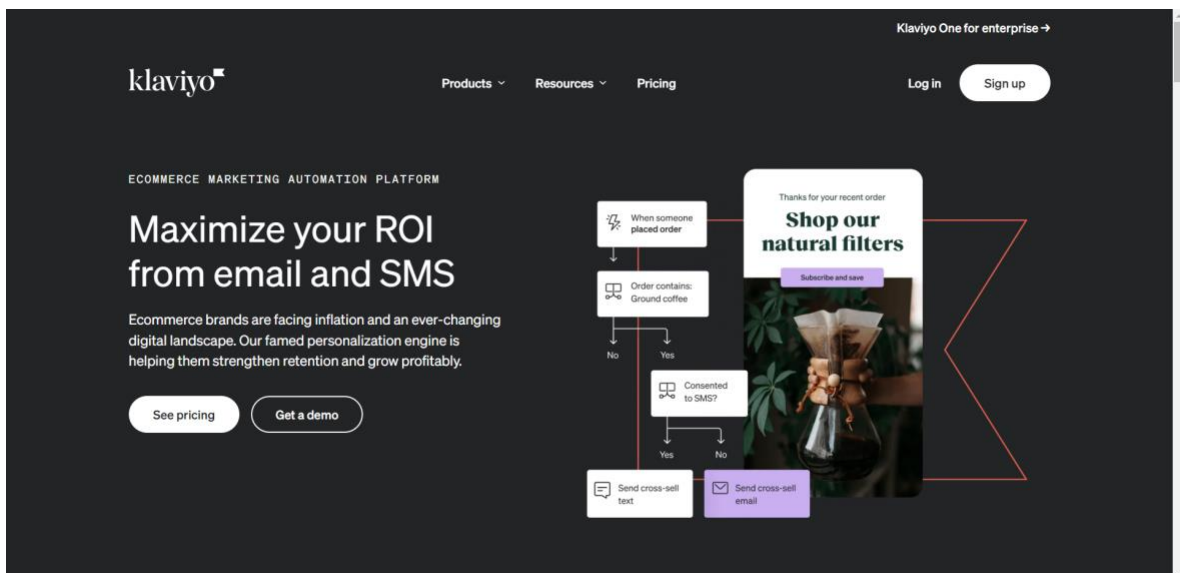

2.5. After clicking the **Klaviyo Beta** link, you'll see this view to authorize the integration. What you need the **Public API Token** to complete it.

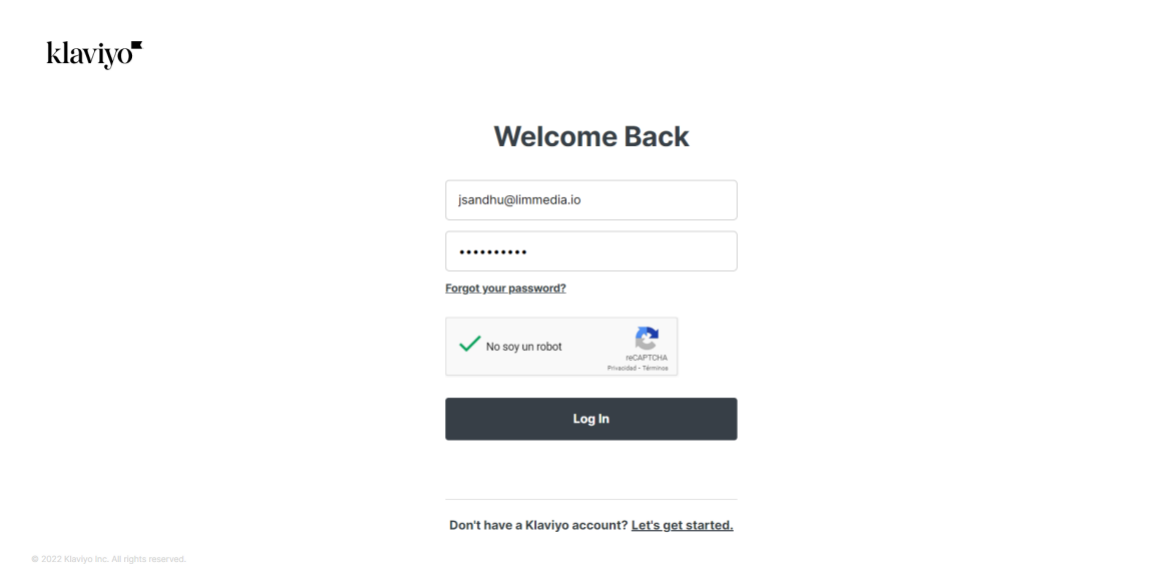

2.6. If the **Klaviyo Beta** doesn't exist on the menu, go back to this document section **Install Klaviyo Beta**.

2.7. To fill in all the details you need to get that from Klaviyo websites. Please visit the next link:
<https://www.klaviyo.com/>

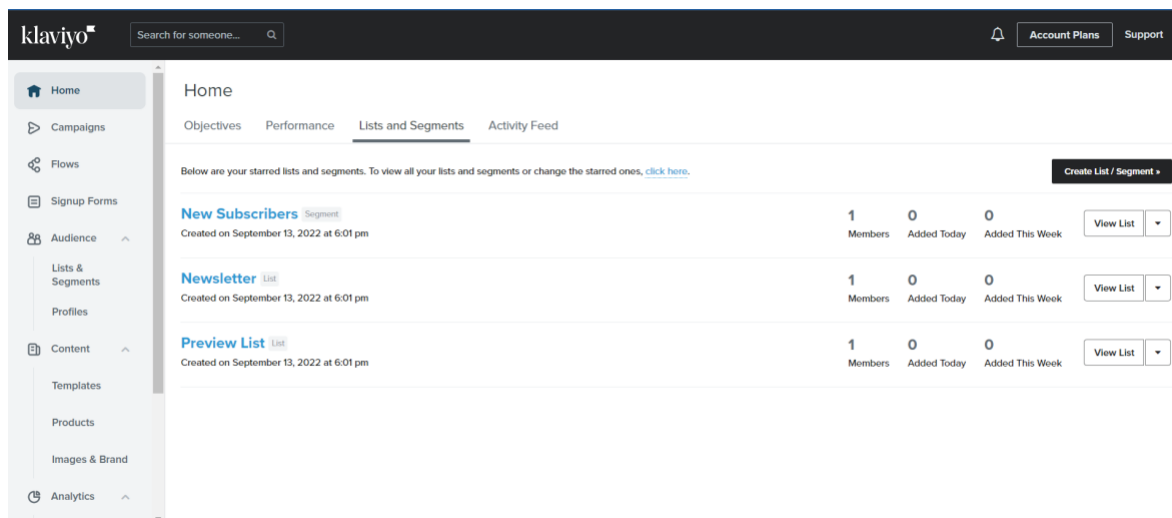

2.8. Once in there, click on the **Log In** button to be redirected to the log in form.

The image shows the Klaviyo login page. At the top left is the Klaviyo logo. The main heading is "Welcome Back". Below it are two input fields: the first contains the email "jsandhu@limmedia.io" and the second contains a masked password "*****". A link "Forgot your password?" is located below the password field. Below the inputs is a reCAPTCHA widget with a green checkmark and the text "No soy un robot". A dark "Log In" button is positioned below the reCAPTCHA. At the bottom, there is a link "Don't have a Klaviyo account? [Let's get started.](#)". The footer contains the copyright notice "© 2022 Klaviyo Inc. All rights reserved."

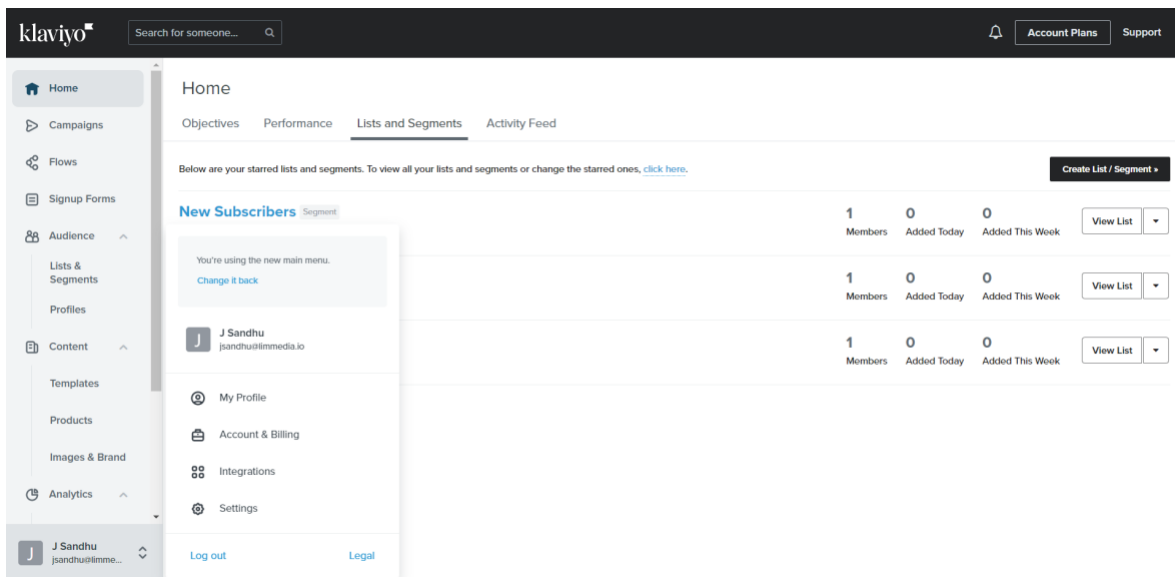

2.9. Once logged in, fill the fields with the email and password, and next you need to check in the **reCAPTCHA** button to verify that you are not a robot and press **Log In** button for get auth.

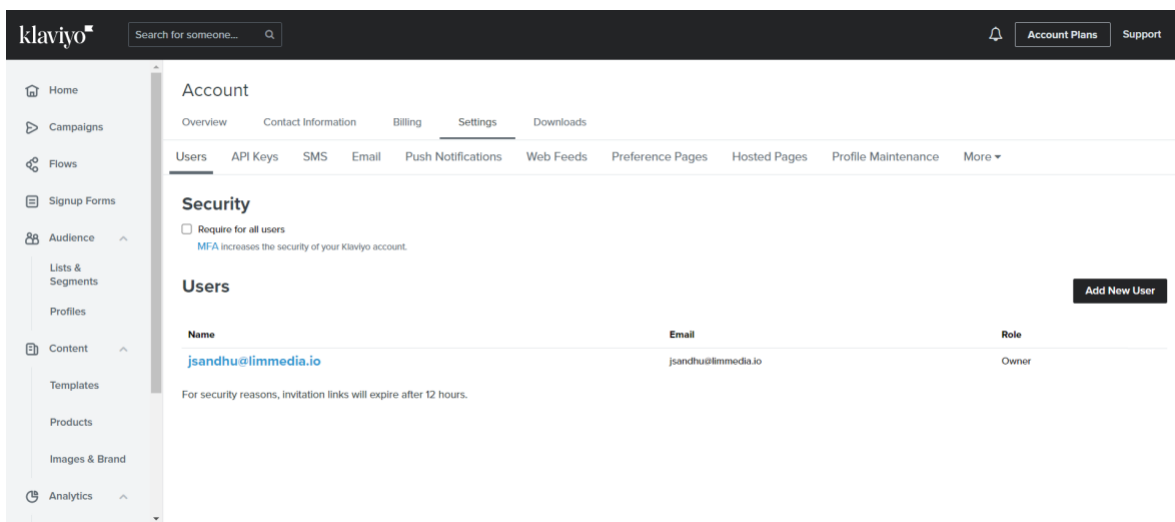

The image shows the Klaviyo dashboard after login. The top navigation bar includes the Klaviyo logo, a search bar, and links for "Account Plans" and "Support". The left sidebar contains a menu with "Home", "Campaigns", "Flows", "Signup Forms", "Audience" (expanded to show "Lists & Segments", "Profiles", "Content", "Templates", "Products", "Images & Brand", and "Analytics"), and "Analytics". The main content area is titled "Home" and has tabs for "Objectives", "Performance", "Lists and Segments" (active), and "Activity Feed". Below the tabs, a message states: "Below are your starred lists and segments. To view all your lists and segments or change the starred ones, [click here.](#)". A "Create List / Segment" button is in the top right. The main content displays three items:

Item	Members	Added Today	Added This Week	Action
New Subscribers (Segment) Created on September 13, 2022 at 6:01 pm	1	0	0	View List
Newsletter (List) Created on September 13, 2022 at 6:01 pm	1	0	0	View List
Preview List (List) Created on September 13, 2022 at 6:01 pm	1	0	0	View List

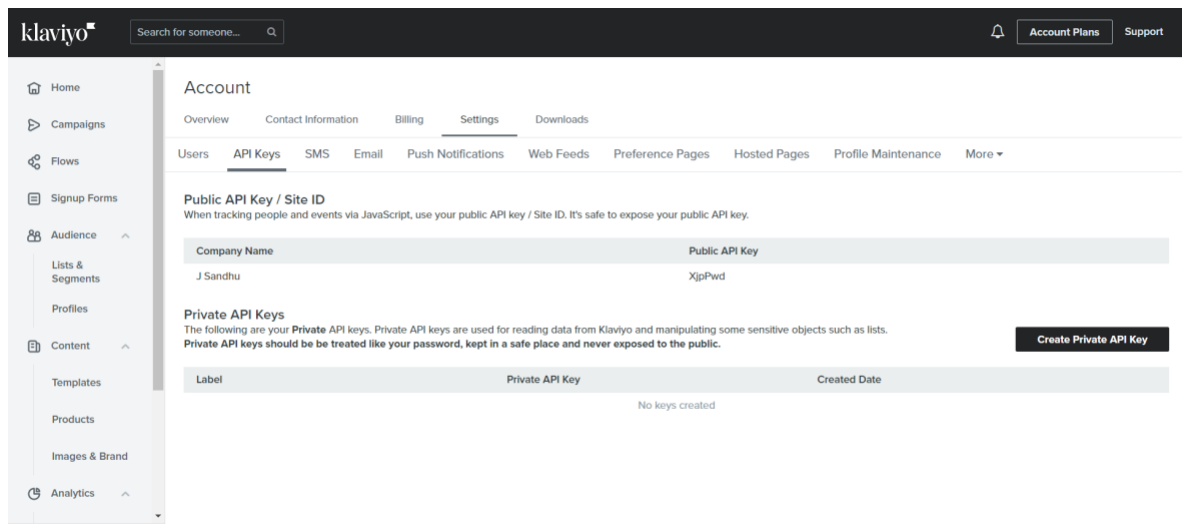

2.10. After you logged in to your Klaviyo account, you will see a side bar menu. Click on the bottom item with your name to open the settings menu as shown below and click on the **Settings** icon.

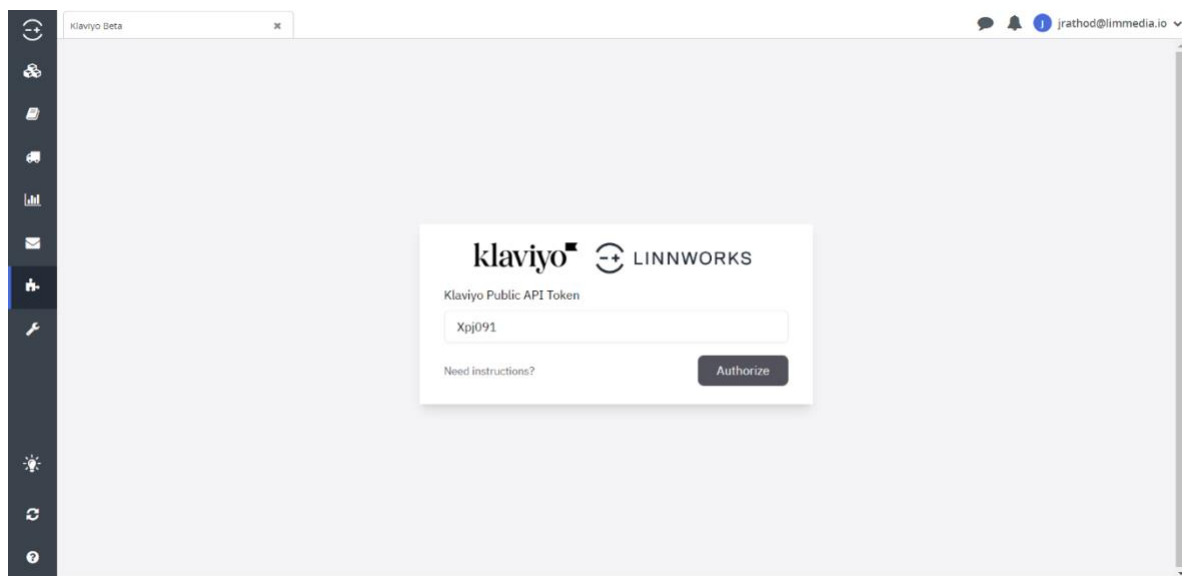

2.11. After going to settings, you can find all the configurations and info of your Klaviyo account. Click on the **API Keys** menu option.

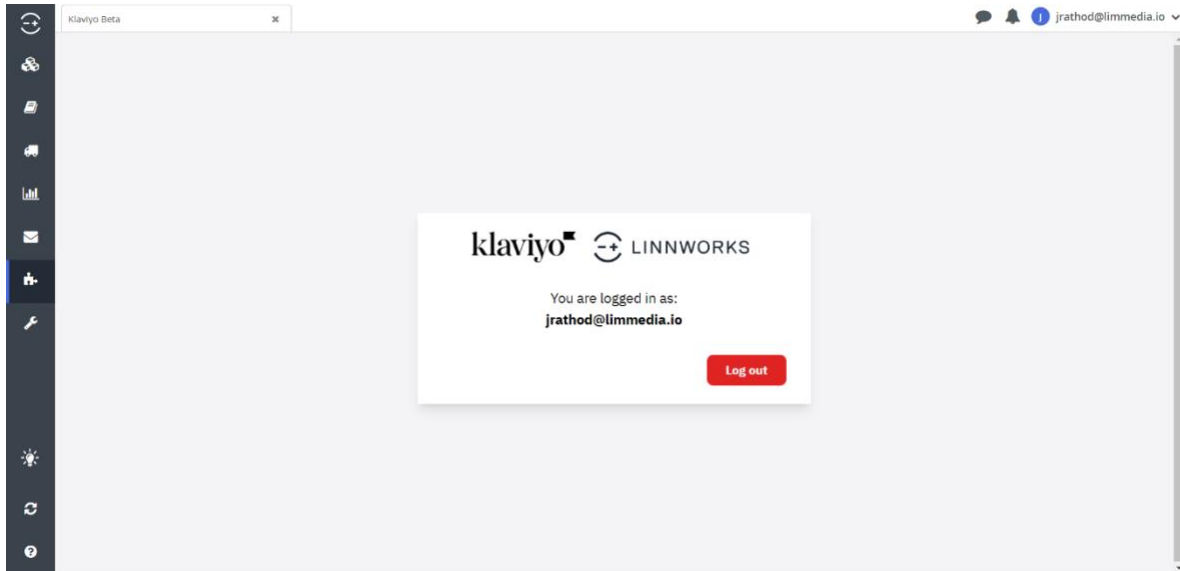

2.12. Your account has a unique **Public API Key** or **Site ID** by default, do not share this with anyone. Copy this **Public API Key**.

2.13. Back to the **Linnworks** website and paste the **Public API Key** into the field and click on **Authorize** button.

2.14. If the **Public API Token** is correct, you see a message on the display showing that you are logged in with a **Log out** button in case that you need to change de integration.

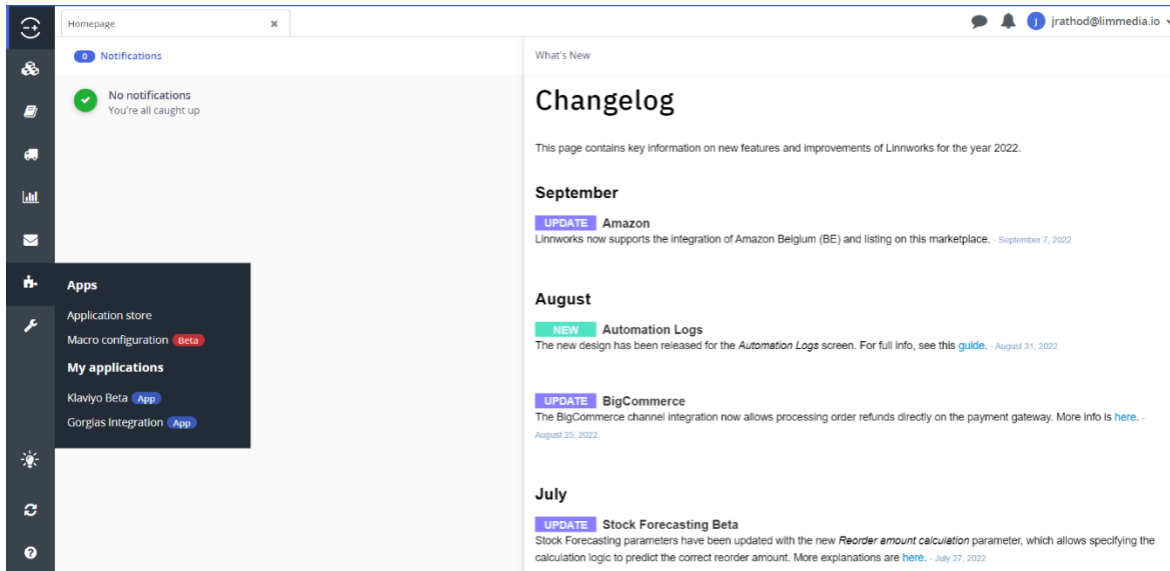

2.15. In case the above window doesn't show, please check your credentials or **Klaviyo Public API Key**, and if the issue persists, please put in **contact with support**.

3. De-authorize the integration (Logout)

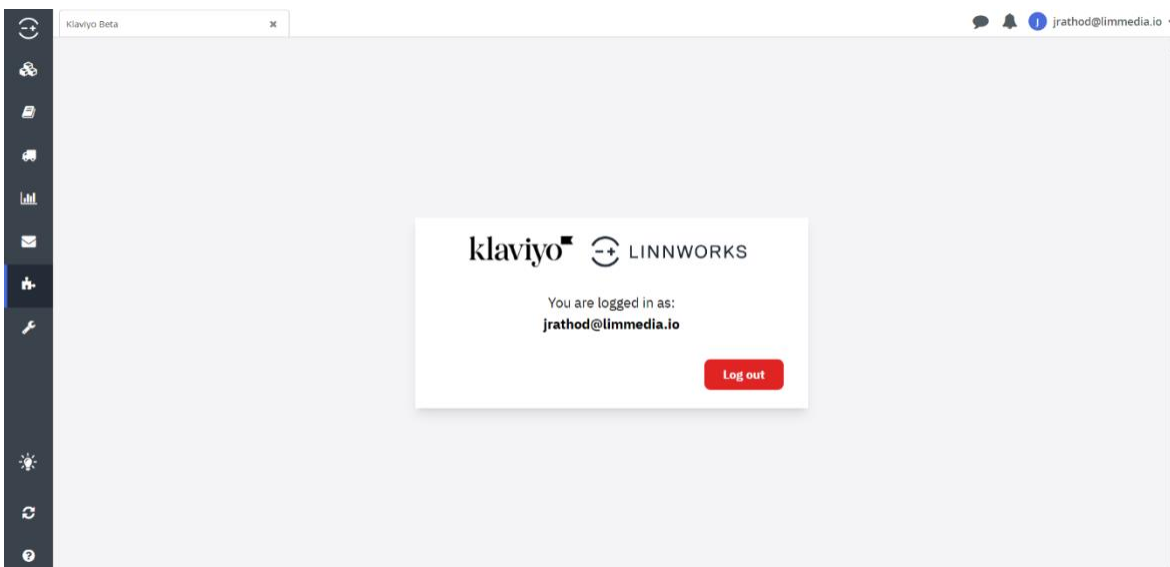

To get logged out from the integration follow the next steps:

3.1. Localize the **Apps menu** option from the sidebar and click in.

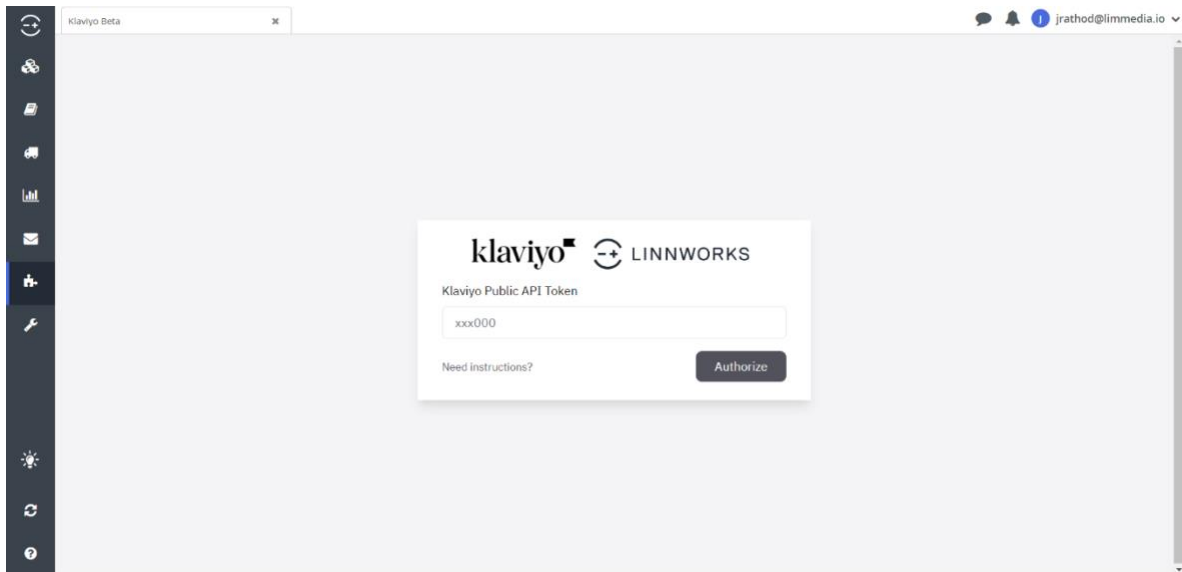

3.2. Find the **Klaviyo Beta** link and click it.

3.3. Once there, you see a view with the email in use for the current integration and the **Log out** button- just click on it.

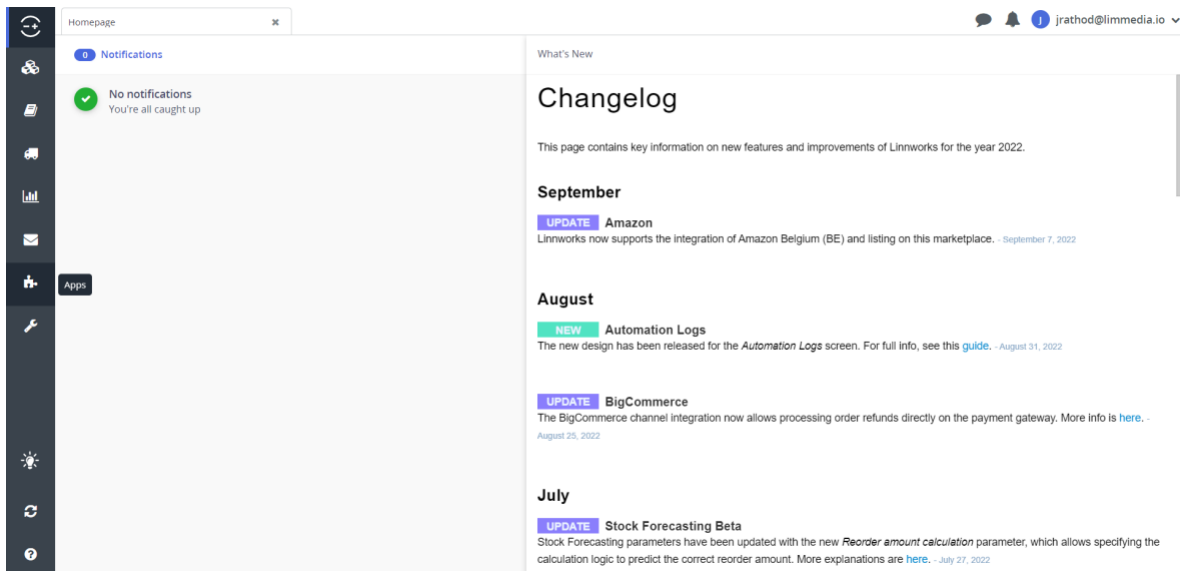

3.4. If logging out was successfully, you'll see the below panel and that would mean that it is ready for another integration.

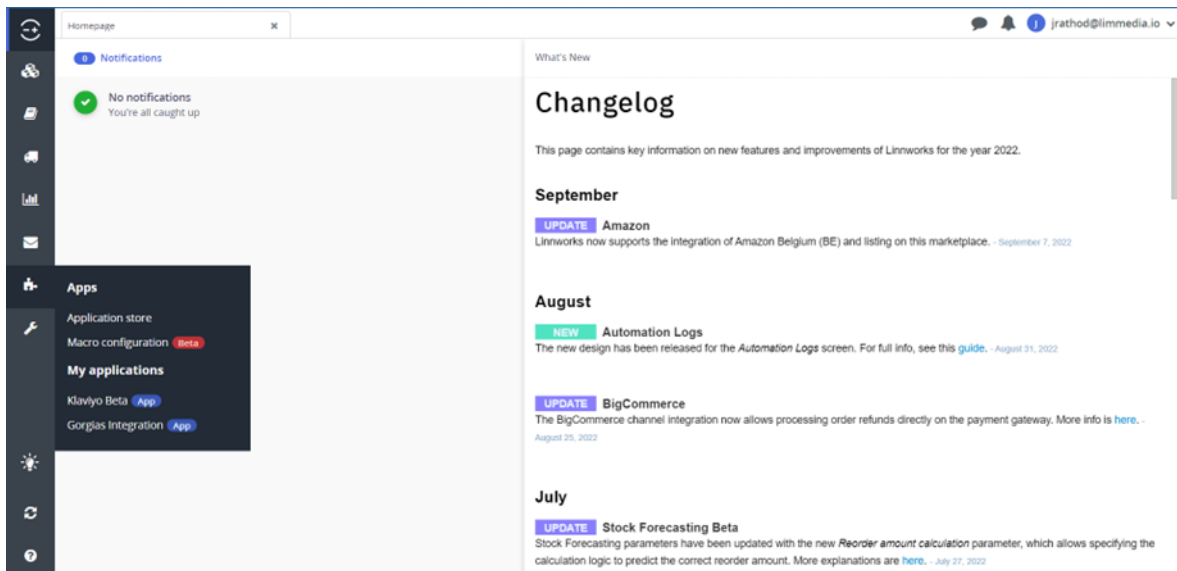

4. Uninstall Klaviyo Beta

To remove the **Klaviyo Beta** Application follow the next steps:

4.1. Find the **Apps** icon on the left sidebar menu options.

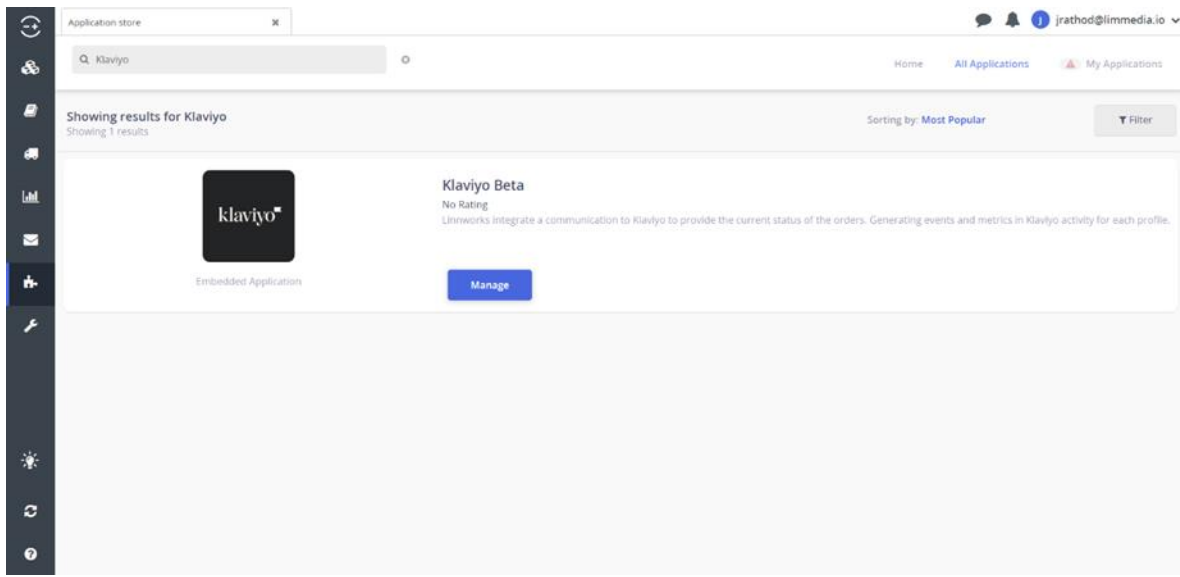

4.2. Click on the **Apps** icon to show the menu.

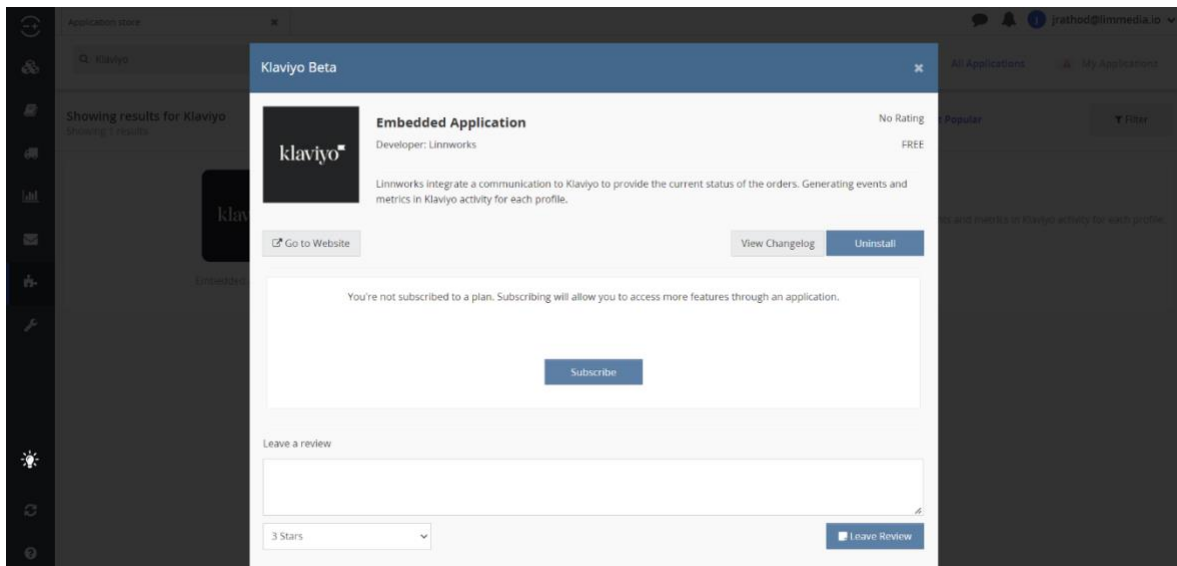

4.3. Click on the **Application store** option.

4.4. Type on the search bar **Klaviyo Beta** to find the application as shown below.

4.5. The results will show the application that you see above with a **Manage** button- click on it.

4.6. Then this window above will display with the application information. You can leave a review if you want, but you look for the **Uninstall** button and click on it to start uninstalling the app.

4.7. If you check for it in the **Apps** menu on the left sidebar, you'll see that the **Klaviyo Beta App** is no longer there. That means that the uninstalling the app was successful.
